

Lithium Battery Charger NOVA-100I

Waterproof

- ⊖ Automatic battery wake-up
- ⊖ Univ. Mains 100 – 240VAC
- ⊖ IR-programming port
- ⊖ Retractable suspension hook
- ⊖ Conditional auto-restart

Custom-Tailored

Designed & Manufactured by MEC - with the user in mind

Built For The Demanding Outdoors

Mobile power - sealed into a compact, waterproof IP68 plastic enclosure. A pressure valve prevents built-up of condensation; water, vibrations and temperature swings are conditions the NOVA-100I is meant to deal with.

Any Lithium-Battery Chemistry and Any Charge Current

MEC will deliver to specification, instantly. MEC-distributors choose from a library of ready Li-battery chemistries or receive support for customized solutions from MEC, by Email, for importing these into the NOVA-100I via the integrated IR-programming port.

The Adjustable Pull-Out Bracket

Hooking the NOVA-100I across ledges, rods, twigs or edges suspends it over puddles of water, oil, obstacles and batches of filth – a real tidy solution to clutter and grime on the floor.
