

Lithium Battery Charger NOVA-360SR

Fan Cooled / IP20

- ✦ Automatic battery wake-up
- ✦ Ignition-Lock/ Drive-Inhibit
- ✦ Univ. Mains 100 – 240VAC
- ✦ IR-programming port

Custom-Tailored

Designed & Manufactured
by MEC - with the user in mind

The Fan-Cooled Nova-360: More Power At Lower Cost

Slow-spinning cooling fan with reduced noise, at lighter loads.
Controlled fan-speed means: long service life for fan and charger.

Field-Programmable Charge Parameters

MEC will change these on request, instantly. MEC-distributors may choose from a library of charge profiles or receive a data file by Email from MEC, for importing into the charger, via the IR-port.

Automatic Battery Wake-Up

Batteries, locked into sleep mode by the BMS, are automatically brought back to life at every start of a charge cycle.
